Direction for Use (How to Prepare)

- 1) This product is suitable for children above 3 years old.
- 2) Washing hands before preparing the formula. Wash and rinse cup thoroughly.
- 3) Using the scoop enclosed, one level scoop powder is around 5.3 g. Add 6 level scoops of powder to 200 mL drinking water. For a warm drink, using lukewarm drinking water to preparing the formula.
- 4) Stir or shake the mixture well to dissolve the powder and serve immediately. Discard any unfinished drinks

JUNIOR FORMULA

PRODUCT SPECIFICATION

Feeding Guide

Child's age	Cooled boiled water (mL)	Level scoops of formula*	Feeds per Day
Over 3 year	200	6	1 – 2

* 1 level scoop = 5.3 g

Note: 6 scoops plus 200 mL of water yields approximately 230 mL.

Important Notice

Consult your healthcare professional before using this or any supplementary food.

Truvita Junior formula is a formulated supplementary food children over 3 years. The nutritional and tasting milk drink is designed to supplement the dietary intake of active toddlers when their diet may be inadequate or require additional energy and nutrients.

The formula may be taken as a drink or added to toddler cereals, or baking in place of regular cow's milk. It will provide extra vitamins, minerals, and protein which are especially important for growing children.

Warning

Product contains Milk and Soy ingredients.
